Midhurst, Ontario

Dear Ron,

Just a note to thank you for the roofs you have completed over the years for us in some very unaccommodating weather. New construction never stops so we appreciate how much harder and more dangerous your job is during winter months. Your staff is always professional and the quality of work unsurpassed. With the volume of work we do problems do arise. We couldn't expect faster service and any problems we had were addressed immediately, the same or next day.

Sincerely,
